Introduction to Story Map Journal

When returning to ArcGIS Online to work on a project, follow these steps:

1. Go to https://ArcGIS.com/home/signin.html

2. Sign in using your ArcGIS Online credentials.

3. Click on **Content**. You will see a list of feature layers, maps and other items created in the ArcGIS Online environment.

4. Click the title of an item to access the **Item Details** page. For example, click the title of a **Web Map**.

	Title				Modified	▼
☐	🖼 Sharon's HLSC map	Web Map	🖧 ☆ ⋯		Sep 11, 2019	

5. Click **Open in Map Viewer**. You can now continue working on the map.

6. Click **Save** after making changes.

Configuring the pop-up

In preparation of making a story map, we want to configure the pop-ups associated with each point.

1. Click a symbol on the map to view a pop-up. In a few quick steps we can customize the pop-up to display only details we assign.

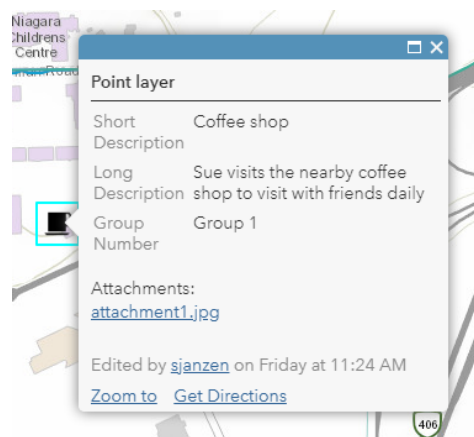

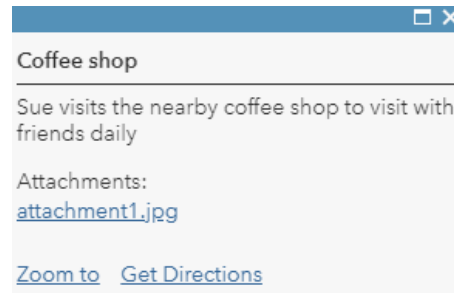

2. Click the ellipses beside the **TTE2019_Group#** layer and select **Configure pop-up.** There are a number of options for configuring the pop-up.

3. Under **Pop-up Title**, remove the default and click the ⊞ . This allows you to select an attribute from the data

Pop-up Title
{ShortDesc}

collection step to use as the title. Select **Short Description** and click **OK**.

4. Under **Pop-up Contents**, beside **Display** choose **A description from one field** and select **Long Description** from the dropdown.

5. Uncheck **Show when last edited**.

6. Click OK.

7. Click a feature on the map to see the pop-up.

8. Save your map!

Sharing

By default, your map is made 'private' meaning that only you can view it. We need to change the "share" settings so the rest of the class and your professor can see the map.

At the top of the map window, click ⊖⊕ Share

Under **Members of these groups** select **Through Their Eyes 2019**. You will be prompted to update the sharing of your layers. Click **Update Sharing**.
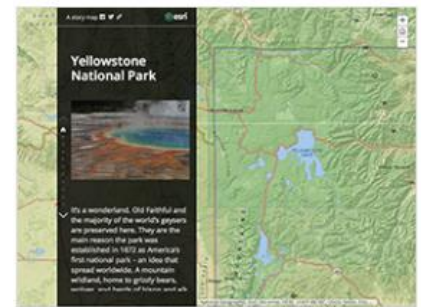

Copy the Link to this map and paste it into an email, report or social media to share with friends.

Creating a Story Map

The following steps will guide you through the process of creating a Story Map Journal. Alternately you can work through the ESRI tutorial https://storymaps-classic.arcgis.com/en/app-list/map-journal/tutorial/

To see an example, go to: https://arcg.is/11i9yT

Story Map Journal
Presents map-based narrative as a set of multimedia journal entries.

1. From the Share window, click Create Web App

2. Search: "story map journal"

3. Select Story Map Journal.

4. Click **CREATE WEB APP**

5. You are prompted to provide a **Title, Tags, Summary** and **Save in** folder.

6. Click Done. The app is generated using the **Story Map Journal** template.

7. Choose **Side Panel** (this can be changed later) and click **Start**.

CREATE WEB APP

PREVIEW

CLOSE

8. Provide a title for your Story Map Journal. Optionally click the Take a Tour button to see an overview of this story map template.

9. Click

Step 1: the Main Stage

The Main Stage occupies the right hand side of the window. You are prompted to add content to the main stage first. From the dropdown list for maps, select the map we've been working on.

1. Beside Location, click **Custom configuration** to select a zoom and pan suitable for the first page of your story. Click Save Map Location.
2. Enter some Alternative Text and click Next.

Step 2: Side Panel Content

This first section is considered the HOME SECTION. Add an introduction to your story here.

1. You can include images or videos to the side panel by clicking the Add image/video button

2. Select upload

3. Browse to the image file you want to add.

4. Add a caption and alternate text.

5. Click OK.
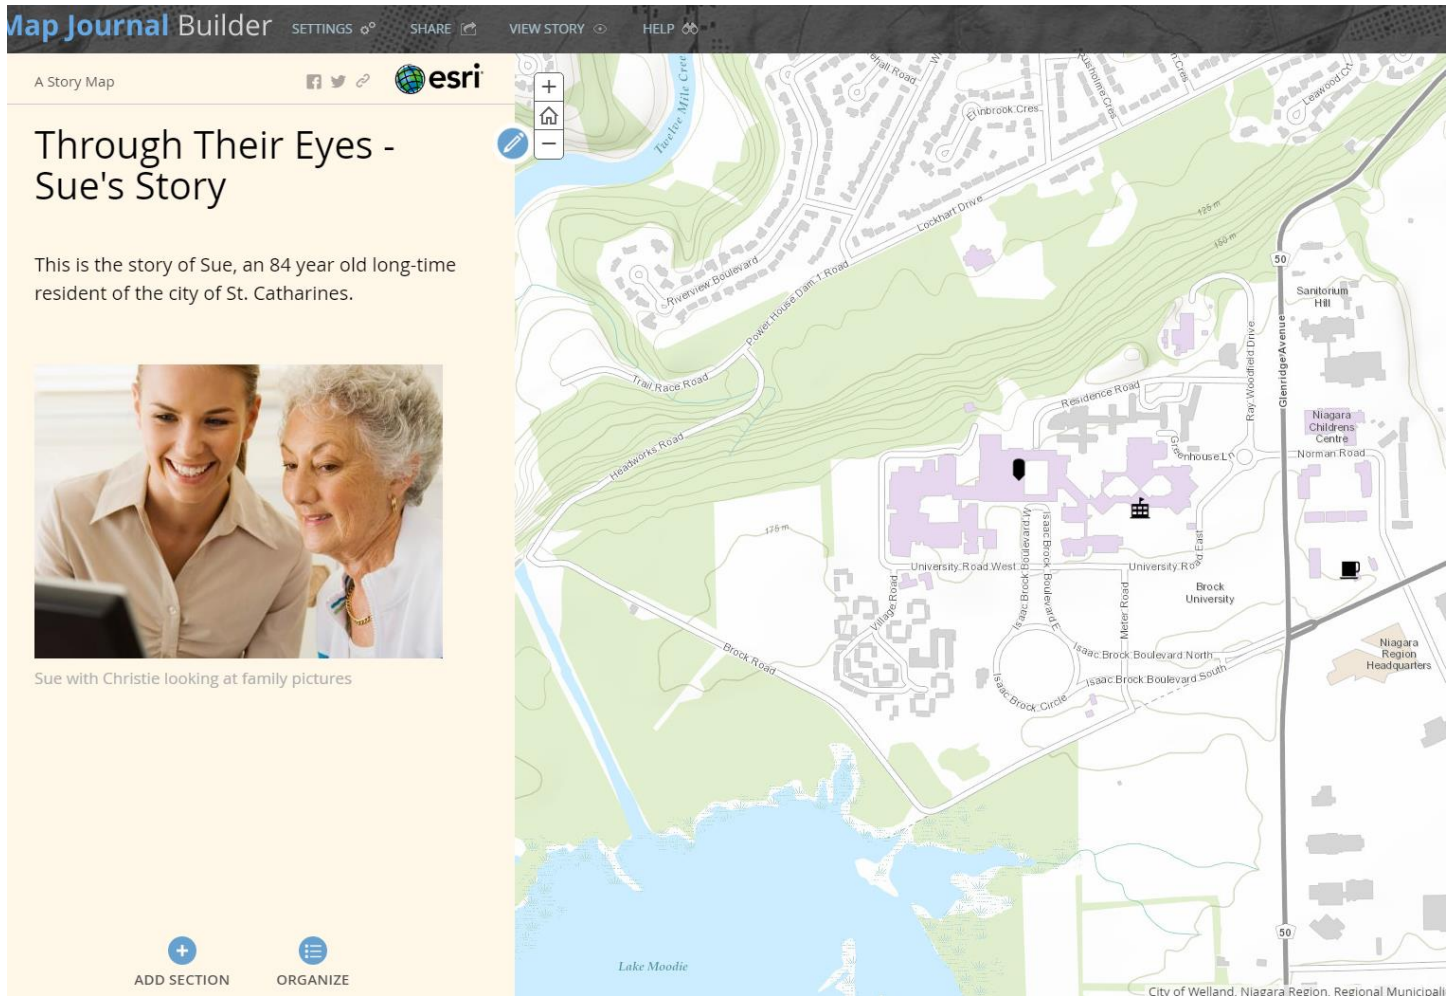

6. At the bottom of the panel on the left, click [ADD SECTION]

7. Assign content to the main stage, configure the view and click next to access the side panel content.

8. Repeat the above steps to add more sections to your story.

9. Click Save at the top right of the window.

10. To edit a section, click the edit button beside a section title

11. You can edit both the Main Stage and the Side Panel from the resulting window.

12. To rearrange sections, click [ORGANIZE] .

13. In the ORGANIZE window you can drag and drop sections to change the viewing order or you can delete sections altogether.

14. Click Apply when finished.

15. To change the layout, click **SETTINGS** ⚙️

16. Select Floating Panel and click Apply.

17. Click Settings again and explore additional options such as Layout, Theme and Header.

18. When you are satisfied with your story map, click **Save** then click **SHARE** 📤. To allow users outside the organization to view the story map, set the share option to Public.

19. Copy and paste the provided URL into an email or social media to share with colleagues.

20. Click **View Story** to see how the app will appear to your user audience.
